The Connected Hub – Careers Statement

At The Connected Hub we believe that all our students should leave school prepared for life in modern Britain.

We aim to do this by:

- Providing high quality taught curricular pathways which mean that students can develop skills, knowledge and attributes which will help them in the next phases of their education and in the world of work.
- Providing a range of extra-curricular activities which build on and extend the taught curriculum so as to underpin success in education and employment.
- Providing a programme of high quality, independent careers guidance.
- Drawing on strong links with local businesses and training organisations to provide students with inspirational experience of the work place and contact with people working in different sectors of business.
-

Below is an overview of our provision against the above aims.

Priorities:

- Developing good English and maths skills.
- Developing attributes of resilience, problem-solving and pride in self-presentation.
- Awareness of their own strengths and aspirations and areas for development.
- Experiencing a curriculum which prepares students for their future education/career aspirations.
- Awareness of their own strengths and aspirations and areas for development.
- Developing employability skills e.g. CV and letter writing, interview skills, team working, communication and leadership.
- Ensuring an awareness of the full range of opportunities post 16 (for both students and parents).
- Working hard to ensure that no student will be Not in Education, Employment or Training (NEET) when they leave The Connected Hub.
