Oceans Autumn 2 Eagles Class

English

During our oceans topic we will be using the fantastic picture book Flotsam to inspire our creative minds. We'll start by looking at a selection of flotsam and speculate on who it belonged to and where it came from. Children will use this as a way of practicing their sentence work a focus on questions. After that we will look at the book in more detail. We will write about what we see using powerful description and ask further questions about the unknowns. Later in the topic we will look at the impact of plastics in our oceans and create persuasive leaflets and posters to highlight the need to reuse and recycle.

PSHE

During our 'Getting on and falling out' topic this term we will be learning to appreciate our friendships and learn how to not demand too much from friends. We will also be learning to take responsibility for our choices and learn to resolve conflicts peacefully.

Anti-bullying week this year is Monday 13th to Friday 17th November and has the theme 'Make A Noise About Bullying'. During this week we will be working with the children across a range of subject to help stamp out bullying.

Maths

For the second part of the term we will be practising the four operations: Addition, subtraction, multiplication and division. Children will work at their own level to move from using resources to formal methods for solving problems. Towards the end of term children will also learn about fractions.

Science

In this term, we will be learning about Inheritance, Adaptation, and the Theory of Evolution. In our lessons, children will learn to recognise that living things produce offspring of the same kind, but normally offspring vary. They will identify how animals and plants are adapted to suit their environment and how living things have changed over time.

Geography

This term will have a geography focus starting with looking at the seas and oceans of the world. We will map where they are and look at the impact that the climate has on our oceans. We will look at the amount of plastics found within our oceans and what we can do to help reduce plastic waste.

Art

We will be creating art using recycled material and found objects on the beach. We will also try to create our own painting in the style of David Wiesner's Flotsam

PE

In P.E we will be learning the skills needed to play net games and we will develop our collaboration skills through learning a variety of team games. .

Computing

We will be using code in Scratch to follow weekly videos and concepts to tell fun, interactive stories. We will build new skills each week, ending in 'show what you know' one-off to demonstrate our learning. We will use Broadcasting, Loops and IF statements.

How can you help at home?

- Help me learn my times tables.
- Encourage me to add up the cost of items when we go shopping or ask me how much change you should get.
- Encourage me to help you cook dinner, clear up and tidy away.
- Read regularly together and ask me questions on the text.
- Identify different types of punctuation used in the text you are reading. ? , ! ()
- Talk to me about what I am learning in school
- Talk to me about my chimp and how my thinking brain can help me when I am struggling to manage.
