All About ME & Black History Autumn 1 Hawks Class

English

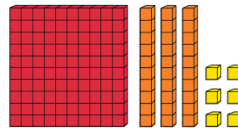

During our All About Me unit, We will be developing our speaking and listening skills in our new class. We will also be creating fact files and poems based on our likes and dislikes as well as creating simple autobiographies.

We will develop our sentence writing skills, focusing initially on basic punctuation. The main skills covered will be accurate use of capital letters and full stops, commas, noun phrases, inverted commas, multi-clausal sentences, past tense, first person, paragraphs and past progressive tense (e.g. were running).

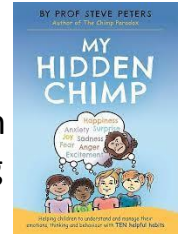

Maths

We will begin this term by consolidating and developing understanding of place value, focussing on partitioning and number lines with numbers up to 1000. We will then look at adding and subtracting numbers which includes carrying and exchanging over the 10s barrier.

PSHE

In our 'New Beginnings' topic we will be thinking about ourselves and our roles in our new classes. We will also be learning about our brains using 'The Hidden Chimp' and thinking about why we behave in certain ways. We will think about which animal mimics our behaviour when we're dysregulated and we will use drama to explore chimp scenarios – What would we do and what would we like to do? Alongside our work on Black History month, we will be thinking about 'Global Citizenship' and what it means to be a part of a multi-cultural society. We will link this to work on anti-racism.

Science

As part of our electricity topic, we will be investigating mains and battery appliances, making simple circuits and learning how to complete circuits. We will investigate a range of conductors and insulators and will carry out experiments to test these. We will make and use our own switches and take part in electrical discussions.

All About ME & Black History Autumn 1 Hawks Class

History

We will use our ICT skills to research and learn about Key figures in Black History and the present day along with learning about racism and how we can tackle racism if we witness it. In art, we will design anti-racism posters and t shirts and send entries to an anti-racism competition.

PE

In P.E we will be learning the skills needed for gymnastics, including balancing rolling and sequencing movements into a routine.

Computing

We will be learning to code using Bee Bots. We will explore using individual commands, identify what each command for the floor robot does, and use that knowledge to start predicting the outcome of programs. We will programme the Bee Bots to follow instructions and debug when there are mistakes in the code we have given them.

How can you help at home?

- Help me learn my times tables.
- Encourage me to add up the cost of items when we go shopping or ask me how much change you should get.
- Encourage me to help you cook dinner, clear up and tidy away.
- Read regularly together and ask me questions on the text.
- Identify different types of punctuation used in the text you are reading. ? , ! ()
- Talk to me about what I am learning in school
- Talk to me about my chimp and how my thinking brain can help me when I am struggling to manage.

Art

We will be creating our own graffiti art using the computer and coloured markers. We will also be using watercolours to paint self-portraits and using papier-mâché to create picture frames.
