Traditional tales Summer 1 Eagles Class

English

After the Easter holiday, we will continue our work on Japan but focus on their traditional tales. During our English lessons, we will read a range of traditional tales from Japan such as Momotao the peach boy and Urashima Tarō and compare them to our English ones. The children will then use these stories as guides to writing their own versions using traditional Japanese characters. Eventually, the children will then turn these stories into playscripts that they will perform using puppets they have made in art.

PSHE

In PSHE this term the topic is Feeling Good Feeling Safe. In this topic the children will be learning about Protective Behaviours - Using the Brighton and Hove schemes of work. Towards the end of the term children will then be working on relationships. Exploring loss and the coping strategies needed to support their mental health.

Maths

For the first part of the summer term, children will be learning about shape. In this topic, children will learn to identify and classify angles, draw lines accurately and calculate angles on a straight line and around a point. Children will learn to use protractors to measure angles accurately and find missing angles in polygons. Finally, towards the end of this term, children will learn about symmetry and translation on grids.

Science

This term we will be learning all about space! The children will start by explaining why we know the Sun, Earth and Moon are spherical and identify scientific evidence which does or does not provide evidence for an idea or argument. Children will learn the names of the planets and their order in the solar system. They will investigate night and day and learn about the phases of the moon. This term we will hopefully be able to visit the science museum in London.

Traditional Tales Summer 1 Eagles Class

Religious education

In this term we will be looking at the traditions of the Shinto religion. The children will learn about where it came from and how it is practised now. We will compare it to the other religions we have studied to find similarities and differences. We will work together to create a display with all the facts we find.

PE

In P.E this term we be learning how to play summer games such as cricket and rounders. Children will learn to throw and catch and how to play as part of a team

Computing

This term we be using cameras and iPad to learn all about stop motion animation. Children will start with simple Lego figure movement and build up to telling a short story

Art

In art this term we will be creating our own planets using papier-mâché to go with our Science topic. We will also be learning to cook healthy fake-away meals.

How can you help at home?

- Help me learn my times tables.
- Encourage me to add up the cost of items when we go shopping or ask me how much change you should get.
- Encourage me to help you cook dinner, clear up and tidy away.
- Read regularly together and ask me questions on the text.
- Identify different types of punctuation used in the text you are reading. ? , ! ()
- Talk to me about what I am learning in school
- Talk to me about my chimp and how my thinking brain can help me when I am struggling to manage.
